

Maverick Driving Academy's Makeup Policy

Students are not allowed to miss the first three days of class. Any day missed after that must be made up in a future class. The instructor will notify the student what day and time that would be. Students can miss up to five days.

There are times when, upon the instructor's discretion, makeup work may be given for the days missed in lieu of coming in person in a future class to make up the class missed. This cannot be done for DADAP classes or the last day of the class. These must be made up in person.
